SUBJECT: REMOTE DISPLAY MOUNTING PATTERNS

FYI #315 05/02/2014

**MKHE & Titan Remote Display Mounting Template**

**SKHE, SK300 & RKHE Remote Display Mounting Template**

**Notes For Remote Display Mounting**

- 2" Conduit w/Connection (DB-15 with strain relief back shell)
- 3/4" Conduit without connection
- 35 VDS Max Voltage
- PVC jacket on cable

- These are 8 twisted pairs
- Black/Red
- Black/Blue
- Black/White

Cutting only recommend with extreme care.

So, it is very easy to mix up the black wires. Strip back 6" on each half and preserve the twist while re-connecting.
